7, The Larchlands,  
Penn,  
Buckinghamshire  
HP10 8AB

I am capable and very experienced Sound Recordist and Sound Supervisor living in Bucks. I have built up experience in television, corporate, and commercials over the last 10 years and am always looking for the next opportunity to solve a production's audio needs. I have a positive outlook and believe that this is key to helping things run smoothly on set.

I own a complete PSC kit and am fully versed in all professional audio equipment with good links to hire houses to make sure each production has exactly what it needs to get the right audio in the edit. Everything from a single camera set up to a large count radio mic, multi camera job.
